

# THE LIMA TIMES-DEMOCRAT.

PAID AND CARRIAGE SUBJECT BY THE UNITED STATES MAIL ASSOCIATION CO.

VOL. XVII. NO. 200

LIMA, OHIO, WEDNESDAY, JULY 9 1908.

PRICE THREE CENTS.

## NATION'S EDUCATORS

### Hard at Work at the Annual Meeting of Their National Association.

### Some Interesting Papers Read by Prominent Instructors from Various Parts of the Country. Ohio Men Conspicuous in the Meeting.

Minneapolis, Minn., July 9.—No general sessions were held by the National Educational Association today, the entire time being given over to meetings of the various departments. This was done in order to relieve the crowded schedule of department meetings which has prevailed in recent years.

This forenoon, in the First Congregational church, the department of kindergarten education held its first session. "Language in Relation to the Work of the Kindergarten" was the general topic of discussion and interesting papers treating of various phases of the subject were presented by Miss Mary C. May, of Salt Lake City; Miss Cecilia Adams, of Denver, and others.

The department of secondary education held its initial meeting at the East side High School, with J. Remond of Cincinnati presiding. After an address by Superintendent R. G. Boone, of Cincinnati, on the subject, "Studies for Adolescents," the meeting separated into conferences for the discussion of various branches of secondary education such as the classics, mathematics and biology.

Before the department of higher education this afternoon papers were presented as follows: "Education for Professional Life and Work," Prof. H. H. Thurston of Cornell University; "Standard Entrance to College by the Examination of the School," or of the Pupil," Professor Edwin G. Hughes of the University of Illinois; "Report of the Commission on Associated Schools," presented by Geo. N. Carman, director of Lewis Institute of Chicago.

The department of normal schools, Joseph F. Millspaugh, of Winona, presiding held an interesting session in the Olive Baptist church, and discussed the general subject of the education of the heads of departments of the training school.

In the chapel of the University of Minnesota, manual training teachers from various parts of the country assembled to listen to papers treating of shop work in the elementary schools. A. W. Richards, of the Workmen's School, of New York City, took as his subject, "From Doing to Thinking in the Shop," and was followed by J. E. Faltner, of Minneapolis.

who spoke of the field of the shop-work construction in elementary schools. The reading of both papers was followed by interesting general discussions.

Before the Department of Art Education the following papers were read and discussed: "Art as an Educational Factor," James L. Hughes, inspector of schools of Toronto; "Elementary Preparation in Drawing for Secondary Schools: What May Reasonably be Expected," Clarence Valentine Kirby, Denver; "Sense Training and the Aesthetic Faculty," Miss Lucy S. Silke, Chicago.

I. O. Crisay, of Albany, N. Y., presided over the session of the department of business education. Other prominent participants were E. W. Stitt, of St. Paul; J. H. Francis, of Los Angeles; C. E. Stevens, of Cleveland; William E. Doggett, of Brooklyn and L. L. Williams, of Rochester.

One of the most interesting sessions of the day was that of the department of child study. Prof. Frederick E. Bolton of the University of Iowa, opened the session with a paper on "New Lines of Attack in Child Study," which was discussed by Miss Clara W. Minkens, of Detroit. The child study department of the Chicago public schools was the subject of an interesting paper by Miss Angeline Lowisch, of Chicago, and Theodore B. Noss, principal of the Southwestern State Normal School of Pennsylvania, closed the session with a paper on "What Our Schools Owe to Child Study."

Other well-attended sessions were held during the day by the departments of physical education, science instruction, special education and Indian education.

The concluding session of the National Council of Education was devoted to exercises in honor of the memory of those members who have passed away since the last convention. Among the number were Charles C. Rompas, Francis Wayland Parker and John Henry Harrows, president of Oberlin college.

Much interest centers in the open meeting to be held this evening when Archbishop Ireland will address the delegates on the subject of the influence and responsibility of the teacher.

## PURE FOOD

### Laws Form the Subject for Discussion.

Portland, Ore., July 9.—Before the convention of the National Association of State Dairy and Food Commissioners today the following papers were read and discussed: "Adulterated Coffee, Glazed and Otherwise," Hon. J. E. Blackburn, of Ohio; "Antiseptic and Coloring in Foods," Dr. A. S. Mitchell, of Wisconsin; "Delicious Affecting Our Food Laws," Hon. R. M. Allen, of Kentucky; "A Review of the Laws and Regulations Relating Flavoring Extracts," Prof. R. F. Ischoltz, of Michigan; "Enforcing the Pure Food Laws in the West," Hon. C. W. Sherwood, of South Dakota. The convention concludes its sessions tomorrow.

## MONUMENT

### Will be Erected to Mark Braddock's Defeat.

Pittsburg, Pa., July 9.—It is interesting to note on this, the 147th anniversary of the defeat of the English general Braddock, by the French and Indians, that definite steps have been taken to erect an appropriate monument to mark the scene of the engagement, where Washington first displayed the superb military genius and valor which resulted in his afterward being chosen to command the American forces in '76. The monument is to stand in Kennerlywood Park, on a site commanding an extensive view of the battleground.

## AWFUL STENCH

### From Many Tons of Dead Fish in Canal

### Is Driving the People of New Orleans to Desperation in their Efforts to Escape from it.

New Orleans, July 9.—Many laborers are engaged today in cutting the levee of the Mississippi river to allow the water to flow through Harvey's canal and wash out millions of tons of dead fish. Because of the wind blowing from the direction of Harvey's canal across the river this morning, the upper portion of this city is enveloped in a stench so horrible that it is almost impossible for inhabitants to exist. The dead fish are of a species known as Buffalo. As buffalo are fresh water fish, no one can offer any certain explanation of how they first got into the salt water of the bay, which is an arm of the Gulf of Mexico. It is supposed that the salt water killed them.

## EPIDEMIC

### Of Typhoid Fever has Broken Out in Camp.

Washington, July 9.—Word has been received by the war department of an outbreak of typhoid fever at Camp Thomas, Chickamauga Park, Ga., the first time that the epidemic has appeared among American soldiers since the Spanish-American war. Several cases have occurred among enlisted men of the Seventh cavalry in the barracks at that camp.

## CATHOLIC

### Divines and Educators Meet Together

### And Discuss Present Educational System.

### Session Finds a Large Number of Clergymen and Prominent Educators Present—Sessions at Palmer House.

Chicago, Ill., July 9.—The Association of Catholic Colleges of the United States, composed of the foremost Catholic educators and divines of America began its fourth annual meeting in Chicago today with a large attendance. The business session held at the Palmer House, were preceded by the celebration of pontifical high mass at the Cathedral, by Rt. Rev. P. J. Muldoon. At 12 o'clock the gathering was called to order by Bishop Conaty, president of the Catholic University at Washington, who delivered the opening address in which he reviewed at length the work of the association since its organization. This afternoon the convention took up the discussion of the present non-sectarian educational system with a view of finding a remedy for the attendant evils.

## WON FIRST

### But Lost out in the Final to Kelly of Oxford.

Henley-on-Thames, July 9.—While C. S. Titus, of New York won easily against competitors yesterday in the race for diamond sculls he was easily beaten today in semi-final by Kelly of Oxford.

Want to Buy a Warship. New York, July 9.—General Pomplun Gutierrez and Colonel J. H. Gregory of the Colombian army arrived from Colon on board the steamer Alhambra. It is said that the Colombian officers came here for the purpose of buying a warship for the Colombian Army.

## BASEBALL

### Results of Games Played Yesterday. National League.

AT CINCINNATI.—R.H.E. Cincinnati 000 000 002—2 15 3 Brooklyn 000 10 10 001—4 11 2 Batteries—Phillips and Peitz; Kline and Abner.

## PLAN

### That is Suggested to Help

### The Strikers.

### Will ask the Public to Contribute.

### Effort will be Made to have all the Unions in the Country

### Take a Hand in the Matter to Assist the Coal Miners in the Fight Against the Operators.

Wilkesbarre, Pa., July 9.—In the struggle for a shorter workday and increased wages the anthracite miners will ask organized labor and the public generally to contribute to a defense fund. Mr. Mitchell says that before soliciting outside support the miners at work must set the example themselves by contributing a considerable portion of their earnings to sustain their fellow members in the hard coal fields who are fighting their common battle. This will be determined upon at the Indianapolis convention. Mr. Mitchell also welcomed the aid tendered by men of means and influence outside the ranks of organized labor.

Efforts will also be made to originate a movement throughout the country so that the unions and others may be prepared to collect funds when the time is propitious. Public men will also undertake an independent movement and solicit subscriptions from those not connected with labor organizations. This movement will be inaugurated in New York city, and the labor organizations and sympathizers in all the principal cities of the country will be called on to appoint committees and carry on similar work.

### May Get Together.

Chicago, July 9.—Through the efforts of Chairman Job of the state arbitration committee a series of meetings have been arranged between the general managers of each of the roads and a committee of five men from the same line. Chairman Job went to each railroad separately and asked the general manager if he would receive a committee of the strikers. In every instance he was informed that the committee would be received if composed of the employees of the road and not from the freight handlers' union. Then Mr. Job reported his success with the railroads and secured their consent to the meetings. It was arranged that each committee should consist of five strikers. The conferences will be held at 10 a. m. These committees will not of themselves be empowered to settle the strike, and whatever the agreement may be, if any agreement is reached at the meeting, it will be reported back to officials of the union for approval, and no action will be taken until it has the sanction of the officials of the union.

### Iowa Miners Take No Action.

Des Moines, July 9.—Iowa mine workers, in conference here, decided to take no action regarding threatened strike in the bituminous region. It was stated by a number of operators that they had been assured by President Reese that the Iowa mine workers would not violate their agreement with the operators, which has until April next to run. President Reese did not attend the operators' meeting.

### Strike Declared Off.

Pawtucket, R. I., July 9.—The street railway employees' strike, which has been in force since June 2, was declared off by a vote of 43 to 14 after a session lasting nearly four hours. The strikers gain absolutely nothing. Excepting five who have made themselves objectionable, all the men will be taken back on the basis of an 11-hour day at 18 2-3 cents an hour.

### Mutiny and Murder.

Pensacola, Fla., July 9.—A story of mutiny and murder on the high seas is told by Captain McDonald of the American schooner Mary Sanford, which arrived from Bluefields, Nicaragua. During the voyage A. G. Nicholson, the first mate, killed Fred Reed, a negro West Indian seaman, because he did not perform some duty in a manner to suit the mate. Immediately after the murder the countrymen of the dead man resented the murder of Reed and threatened to hang Nicholson from a yardarm. The captain, two mates and two stewards were the only white men on the vessel, and they managed to preserve order.

## STEEL ROAD

### A Mile Long will be Built by Schwab.

New York, July 9.—Charles M. Schwab, the steel king, has become so much interested in automobilizing that he has offered to contribute a mile of steel for a road to be constructed by the automobile club of America. The club could not get material in the form desired until Mr. Schwab heard of the difficulty. "I'll find it," he said. It will be flat like an ordinary pavement.

## BAPTISTS

### Are Holding an Annual Rally at Providence.

Providence, R. I., July 9.—Loyal Baptists of the United States and Canada, young and old but mostly young, are flocking into Providence from all directions. The twelfth international convention of the Baptist Young People's Union of America will be called to order here tomorrow, and already the hotels, boarding-houses and private residences are crowded with delegates and visitors, while special trains with additions to the advance guard are still en route from the south and west. Tonight as a preliminary, there will be special prayer meetings in the several churches of the city, when supplication will be offered for the divine blessing upon the convention.

## FLAG

### Was Torn up and Insulted

### By Foreigner.

### Was Soundly Trowned for the Act.

### He was Subsequently Arrested and Taken Before a Tribunal

### Where a Fine was Imposed upon Him for having Violated the Law Protecting the Flag.

Boston, July 9.—Charles Roberts, an assistant steward on the Cunarder Saxonia, was fined \$10 in the last Boston district court on pleading guilty to a charge of desecrating the American flag. Roberts, with two companions, was enjoying the Fourth of July in East Boston and was somewhat intoxicated. At a hotel there, while waiting to be served with refreshments, Roberts took a small American flag from his pocket and, after making some insulting remarks, tore the flag into shreds and threw them in the face of a stranger. Several of those present drove the three men into the street, where one Bostonian singled out Roberts and gave him such a beating that the latter had to cry for mercy, and has since been confined to the hospital. Roberts is an Englishman.

## WHITELAW'S ROW

### Over His Place in the Parade was in Vain.

London, July 9.—Truth today says that everything except the essential parts will be cut from the coronation service, so that it will last for 1 1/2 hour only. Few royal relatives will come to the ceremony, but foreign courts will be represented only by resident ambassadors. The ceremonies will last but one day and will be held in August.

### Presidential Postmasters.

Washington, July 9.—The records of the postoffice department show that during the last session of congress the first session under President Roosevelt's administration, he nominated 2,611 presidential offices in the country. Of those nominated the names of 17 were withdrawn, two were rejected by the senate and 19 failed to secure confirmation, leaving 2,574 who were confirmed.

## BOTH

### Dead From Their Own Bullets.

### Two Farmers

### Committed Suicide by Shooting.

### Told their People they were Going out on a Hunting Trip

### But when they did not Return their Friends Found them in the Forest Fatally Wounded.

Hinton, W. Va., July 9.—William A. Mahan and Charles H. Blaker, two prominent farmers of Sweetsprings, Monroe county, committed suicide by shooting themselves. It appears they had before threatened to kill themselves and were being closely watched by their relatives. At an early hour they left their homes with their guns and said they were going hunting. Their families thought but little of their going until they heard two gunshots. A search revealed the men. Mr. Mahan had evidently placed the muzzle of his rifle to his mouth, and was dead when found. Blaker had shot himself through the breast with a breechloading shotgun and was unconscious, but lived a few minutes. Both men were 42 years old and cousins. They gave no reason for wanting to die.

### Miss Morrison Sentenced.

Eldorado, Kan., July 9.—A motion for a new trial, a motion in arrest of judgment and a plea that sentence be postponed were successively overruled, and sentence was then pronounced upon Miss Morrison, who sat down without saying a word or shedding a tear. She was cool and self-possessed. No emotion was displayed on the part of her father and brother, and after the judge had given the attorneys 50 days in which to file a bill of exceptions Miss Morrison arose and followed the sheriff to her cell, accompanied by her father and brother.

## DIVORCE

### Is Asked from Woman who Helped Biddles Escaped.

Pittsburg, July 9.—Peter K. Soffel, ex-warden, has begun a divorce suit against his wife, Katherine, who helped the Biddle boys to escape. Mrs. Soffel is now in the penitentiary and will not contest the suit. Soffel is now a trackman for the Wabash railroad.

### Disastrous Storm.

St. Johns, N. F., July 9.—Reports continue to arrive here of disasters on the coast as the result of the recent storm. Whittie's craft, with five men, was lost off Cape St. Mary. Hennessy's schooner, with 25 men and two women on board, barely escaped foundering in Haddock cove. Eighty boats were destroyed in Pouch cove. The loss in fishnets and gear sustained by the settlements in the vicinity of St. Johns is estimated at \$40,000. The schooner Lily, with a general cargo, ran ashore in Blackhead bay and is a total loss. The schooner Jasper has in all likelihood been completely wrecked, and there have been numerous minor disasters.

### A Record Run.

Springfield, Ill., July 9.—The fast mail on the Baltimore and Ohio Southwestern railroad made a record run from Washington, Ind., to East St. Louis, a distance of 165 miles, in 188 minutes, including six stops which averaged five minutes each, making the actual running time 153 minutes. The train consisted of an engine and six coaches.

### Will Fence the Border.

Ottawa, July 9.—As a result of the recent trouble in the Leithbridge district from American cattle straying across the boundary line into Canada, it is stated that a wire fence will be constructed for about 100 miles along the boundary line between Montana and the Canadian side.

### Grain and Pork.

Chicago, July 9.—Closing September wheat 73 1/2; corn 61 1/2; oats 31 1/2; pork 18.60.

### Live Stock Market.

East Liberty, July 9.—Cattle light, steady; hogs active, 5 and 10 cents higher; sheep fair, slow.

## FEMININE

### Leaders from Many Parts of the World

### Are Holding Important International Council.

### An Attempt Will be Made to Bring the Presidency of the Club to This side of the Water.

Copenhagen, July 8.—Feminine leaders from many parts of the world are gathering in the Danish capital for the annual meeting of the executive committee of the International Council of Women, to be held here during the next three days. The initial session was held today at the home of the president of the Danish council, Froken Henri Forchamer. Mrs. Susan Young Gates was present as the representative of the national council of women of the United States.

Among the delegates there is much discussion concerning the next president of the international council. Until the election of the incumbent, Mrs. May Wright Sewall, the honor had always remained in England and it is reported that a coalition is afoot to bring back the presidency to this side of the water at the next election. Two items of business to receive attention at the present meeting are the proposal to form a new co-operative committee on internationalism, and a recommendation that international societies be allowed affiliation with the international council.

## SNUBBED

### Foraker Men Formulate Plan of Sweet Revenge.

Put-in-Bay, July 9.—The Nash Hanna-Dick municipal code will not have an undisputed right of way. The Foraker and Daugherty men, having been snubbed, will get up a rival code for submission to the legislature. If the Hanna plan is board government, Foraker will come out for a modified federal plan.

## LATER REPORTS

### Would Indicate That Marcus Has Been Quite Busy.

Put-in-Bay, July 9.—It looks now like a victory for the board in the plan for municipal government. The scheme so far as agreed on for all cities, includes mayor, city auditor, treasurer and solicitor elected by people. The board of public service to be elected. Police board to be appointed by governor, and health board to be elected probably by council. Hanna, Dick and Burton returned to Cleveland this afternoon. Nash will consult lawyers now.

### Ordered to Chicago.

Green Bay, Wis., July 9.—Orders received here from railway headquarters at Chicago are to the effect that station agents, section bosses and other railway employees who can be spared are to report to Chicago immediately to aid in handling freight during the strike. It is said similar orders were issued to all stations.

### On a Pleasure Trip.

New York, July 9.—Accompanied by his wife and two daughters, Secretary of the Treasury Shaw left New York for Boston on the revenue cutter Gresham. The party is on a pleasure trip.

### Is Working Overtime.

Metropolis, Ill., July 9.—The temperature has been very oppressive here for two days, the thermometer registering 105 just after noon.

### THIS AND THAT.

### Crisp Items of Information From Every Climate.

Residents at Tulsa, I. T., are nervous over subterranean noises in that vicinity.

At Weiston, O., Ed. Mittenfiorf, a telegrapher, shot and killed himself at his home.

British ships Cumberland and Earlscourt are several weeks overdue at San Francisco.

Mrs. Walters, one of the heirs to a \$4,000,000 estate, in an inmate of the Pickaway county (O.) infirmary. The discharge of union officials at the Miles tool works, Hamilton, O., precipitated a strike of the molders and coremakers.

Robert Hill shot and killed his sister, Mrs. Alice Rife, at their home in Roxbury, Mass., and then turned the revolver on his mother, inflicting probably fatal injuries.

## ROW

### Between Colored Gamblers

### Is Terminated

### By a Thirty-eight Calibre Bullet.

### One Fighter Taken to the Hospital With a Wound in His Leg.

### Stranger Who Fired the Shot is Believed to Have Escaped by Boarding an L. E. & W. Freight Train.

About 11 o'clock this morning two strange colored men became engaged in a quarrel on south Main street, near Eureka street, and the affair terminated in one of the men drawing a revolver and firing a bullet into his adversary's leg. Little could be learned concerning the origin of the trouble but it is reported that the men had indulged in a game of crap shooting and that they quarreled over the winnings made by one. The man who was injured is said to have started toward the other with a brick, whereupon the man who was armed with a thirty-eight calibre revolver, drew the weapon and fired one shot.

A telephone message soon had several policemen on the scene but the man who had fired the shot had disappeared and the wounded man, thinking the officers were after him, started across lots to make his escape. He was soon stopped, however, and was taken to the city hospital, where his wound was examined and dressed by Dr. Steiner. The bullet had entered the fleshy part of his right leg above the knee and lodged in the muscle in the back of the limb. The ball was soon located and removed and the wound is not considered a serious one. The wounded man gave his name as Wilson and claimed that he did not know the name of the man who shot him. The latter ran east on Eureka street to the C. H. & D. railroad and then started south. It was reported that he had boarded a south bound freight train on the C. H. & D. and the police sent messages to Cridersville and Wapakoneta to intercept him. Later, however, it was learned that he had boarded a north bound C. H. & D. train and had ridden into the north yards and then crossed to the L. E. & W. tracks where he boarded an east bound freight train on the latter road. Messages were then sent to the authorities of Bluffton and Findlay requesting the arrest of the man and stating that he is wanted here on a charge of shooting with intent to kill. The police received many different reports as to the course taken by the fugitive and one colored man who had been seen skulking through the L. E.

W. yards on the south side, was captured about a mile south of the city by officers Ferguson and Van Raman. Another strange colored man and two white men, all tramps, were captured on the north side by officer Billatch.

## HYDROPHOBIA

### Case Develops at the Veterinary Hospital.

### Female Fox Terrier, Owned by Dr. J. H. Blattenberg a Victim of the Dreaded Disease.

Dr. Blattenberg, the veterinary, has a female fox terrier at his veterinary hospital on north Union street that is developing what is believed to be a serious case of hydrophobia. A few weeks ago the animal was bitten by a dog that acted queerly and since that time Dr. Blattenberg has watched her closely. Yesterday the first symptoms of the dreaded disease appeared and he immediately placed her in a stall and chained and muzzled her. He is watching the case closely and is now convinced that it is one of genuine hydrophobia.

When your system is wasting away with melancholy thoughts, restless nights, sorrowing days, renew life's glorious pleasure with Rocky Mountain Tea. 35 cents. For sale by H. F. Vorkamp, corner North and Main streets.

### A PLEASANT AFTERNOON.

How many women in this city have a part of their afternoons for pleasure or improvement of mind and body? Many of them do housework of some kind all day long. They can change these conditions if they will use Easy Task Soap. It's pure and white, does the work in half the time and lasts twice as long as the common yellow laundry soap. All grocers sell it at 5 cents a bar.

## GRAIN UP

### Both Wheat and Oats Advanced Several Cents.

Chicago, July 9.—The weather had a decided effect this morning on July oats and wheat, oats bounding from 36½ to 51 and wheat from 74½ to 76 1-8.

### ATTENTION.

All members local union 182, United Brotherhood Carpenters and Joiners of America, are earnestly requested to be present at next meeting July 10, a proposition of importance to be voted on.

Respectfully,  
C. M. RITTNER, Rec. Sec.

### Chicago Stock Market.

Chicago, July 9. — Cattle 15,500, strong to 10c higher; hogs 30,000, steady; sheep 15,000, 10c higher.

### The Weather.

Washington, July 9.—Ohio, showers tonight and Thursday; not so warm.

## BIG

### Crowd of Pleased People at

### The Carnival

### Enjoyed the Attractions Last Night.

### The Midway and the Theaters were All Well Filled.

### Tomorrow Will be Elks Day and Large Delegations are Expected from the Neighboring Towns.

If good weather continues, the Elks' carnival will be the big success that every member of the lodge and their friends have hoped for. The carnival people say that they have had a very successful season and that the first two days in this city have indicated that Lima will be no exception to the rule that has been established by twenty weeks' business. Every day is a big day at the carnival but probably tomorrow and Saturday will be the biggest days of the week. Tomorrow will be Elks' day and members of the order will be coming in all day from all parts of the state. The Elks from St. Marys, Wapakoneta, Van Wert, Delphos and Sidney will come in separate bodies, each accompanied by a band and each delegation will be accompanied by large parties of excursionists from all directions.

One of the most sensational features of the carnival performances is Charles G. Kilpatrick's flying ride down the high flight of steps on a bicycle. He made his first ride in Lima yesterday afternoon and every person who witnessed it is anxious to see the feat performed again. The high dive and Phillion's work on the spiral tower are also very fine features. Phillion doing his marvelous work at night in the midst of a grand display of fire works. The Stadium show was put on for the first time yesterday afternoon and all who witnessed it were delighted. There are two performances in the Stadium and two of the high dive, two on the spiral and two of Kilpatrick's ride each day—afternoon and evening. The unanimous verdict of every person who has attended the carnival is that the shows cannot be too liberally praised. Everything is good and more entertaining and marvelous than was expected.

### A Big Crowd Last Night.

The local Elks certainly have reason to congratulate themselves on the magnificent out pouring at the carnival last night. Not only was the crowd large, but it was made up of the very best element of the city. The carnival spirit reigned and all on the grounds spent an enjoyable evening. For the first time this week, the

medium performance and the free acts were given. Without exaggeration it can be said that there was never before seen in Lima any show that could be by any chance be compared with the stadium program.

The Kilpatrick cycle dance is a wonderful. Four people—Kilpatrick, Marie Vail, Marie Vokes and Frank Delaney speed about a miniature plank track at a terrible speed, their bodies and wheels in a position almost horizontal. They pass each other, now one at the bottom of the track, now skimming rapidly around so near the top that it appears as though wheels and riders will leave the track and plunge into the audience. An accident of this kind did befall Doherty at Logansport, Ind., some weeks ago, and he shot out about twenty feet, landing in the crowd in the reserved seats. The accident necessitated his temporary retirement.

The high dive is another thrilling act. Paul Splash mounts a brilliantly illuminated ladder, one hundred and five feet in height, and makes a backward somersault dive into four feet of water, held in a tank only four feet square. Splash is the champion high diver of the world, the title having been won by his dive from the Falls Bridge, St. Louis, at a height of 121 feet. For this performance he won the Richard K. Fox medal. Miss Spray dives from the same ladder, at a height of fifty feet, executing a triple somersault.

The spiral tower is a wonderful act. It is one of the free acts at the carnival, and is done by Achilles Phillion, who amounts to a height of fifty feet, on a globe eighteen feet in diameter, propelling it with his feet up a roadway but fourteen inches wide. Reaching the top of the tower, he goes out upon a cable, three inches wide, and fifty feet long. Returning, he descends amid a magnificent pyrotechnical display.

Makes the fires of life burn with a steady glow. Renews the golden, happy days of youth. That's what Rocky Mountain Tea does. 35 cents. For sale by H. F. Vorkamp, corner North and Main streets.

## NEXT WEEK

### The Races Demand the Public's Patronage.

### A Four Days' Event Which will be Appreciated

### By those who Enjoy the Fastest Kind of Racing in which the Very Best of Horses will be Started.

Next week, beginning with Tuesday, the carnival excitement will move into the races and all Lima will have the opportunity of a four days' feast of a different variety, but none the less interesting. The management, with J. C. Linnehan as president and Tom Sullivan as secretary, has given the race loving people a full measure of enjoyment in seasons gone by and there has been no expense spared for the season of 1902, as the program itself vouches for.

It takes a good purse to attract good horses and of the 12 separate events a division of \$400 is offered to those who have the talent to introduce. No city in the circuit offers as much money to the winners and each of the four days there is a fast harness event scheduled which should insure a large attendance. Beginning with the 15th the following races are scheduled:

Tuesday, July 15—2:30 trot; 2:15 pace; 2:22 trot.  
Wednesday, July 16—2:40 pace; 2:15 trot; 2:23 pace.  
Thursday, July 17—2:18 pace; 2:16 trot; free for all pace for horses eligible to 2:11.  
Friday, July 18—2:18 class trot; 2:30 pace; 2:40 trot.

From the number of applications received, the public can be assured of the presence of the best horses in this section of the state and not a few of them are already on the grounds ready for the signal to start.

## SMALL FIRE

### At the Home of David Overholtz this Morning.

The fire department was called out shortly after 10 o'clock this morning by an alarm from box 71, at Wayne and Charles streets. The fire was found in the roof of a shed kitchen at the home of David Overholtz, 1130 west Wayne street. The blaze started from a spark. The fire was extinguished with water thrown from buckets and the damage was not extensive.

It's all true and of "Blue's."
